AgentNet® | ResWare™

First American Title agents can seamlessly share data between ResWare and AgentNet platforms, streamlining the order and delivery of products and services.

Searches and Commitments *(Where Available)*

» Request title search products and receive results directly into file
» View supporting documents automatically loaded into Documents tab
» Benefit from enhanced functionality with ResWare2ResWare mapping

Hyperlinked Search Product* *(Where Available)*

» Receive commitment and phrases with hyperlinks for quick access to supporting documentation
» Share final commitment easily without attachment size limitations
» Provide customers with immediate access to documents – no downloading images or logging into a website
» Offered for residential and commercial properties at no additional charge

Clear2Go® Report

» Delivers search results in minutes for residential refinance transactions including applicable recorded documents
» Displays Complexity Indicator in Notes to assist in determining further actions
» Creates action item for applicable Coordinator based on search results

Closing Protection Letters

» Generate Closing Protection Letters for all available covered parties
» Add second party to your Closing Protection Letter with the ability to search by role *(Title, Escrow)*

Electronic Policy Jackets

» Generate eJackets to save time, increase accuracy, and better manage inventory
» Generate Short Form Loan Policies with eSignature option *(v 9.4 and later)*

Calculate Rates and Fees *(Version 9.8 Required)*

» Use Rates and Fees integration for quoting and post-closing to ensure accurate premiums
» Enables file to be remitted electronically or auto-reported via AgentNet

Electronic Remittance *(Version 9.8 Required)*

» Easily transmit remittance data to AgentNet for files where Rates and Fees have been calculated
» Single file and bulk file remittance supported

Policy Upload *(Version 9.10 Required)*

» Policy images can be uploaded to AgentNet, saving time and operating costs
» Assists with ALTA Best Practice #5 compliance
